

## **PROFILE OF SWPA POWER In The 2nd Congressional District of Kansas**

**More than 127,000 constituents** in the 2nd Congressional District of Kansas enjoy the benefits of clean, renewable and efficient hydropower generated at Corps of Engineers multipurpose reservoirs and marketed by the Southwestern Power Administration. SWPA power distributed to businesses and industry also supports **almost 21,000 jobs** in the district with a payroll of **about \$422 million annually**.

The power marketed by SWPA is generated at 24 Corps dams in the region. In 2001 these multipurpose projects generated **4,669 million kWh** of hydroelectricity. Of that amount, **347 million kWh** was delivered to Kansans. SWPA customers, through their electric rates, will repay more than 35 percent of the entire cost of constructing these 24 lakes — **more than \$1 billion** — *plus interest!*

SWPA power is distributed in the district by the following consumer-owned, not-for-profit electric systems:

- **Brown-Atchison Electric Cooperative Association, Horton**
- **C.&W. Rural Electric Cooperative Association, Clay Center**
- **City of Chanute**
