

## **PROFILE OF SWPA POWER In The 5th Congressional District of Oklahoma**

**Almost 90,000 constituents** in the 5th Congressional District of Oklahoma enjoy the benefits of clean, renewable and efficient hydropower generated at Corps of Engineers multipurpose reservoirs and marketed by the Southwestern Power Administration in Tulsa. SWPA power distributed to businesses and industry also supports **almost 4,200 jobs** in the district with a payroll of **more than \$70 million annually**.

This power is generated at 24 Corps dams in the region, including eight in Oklahoma: Broken Bow, Denison (Lake Texoma), Eufaula, Ft. Gibson, Keystone, Robert S. Kerr, Tenkiller Ferry and Webbers Falls. In 2001 these eight dams generated **2.1 billion kWh** of electricity, or almost 46 percent of the energy generated by SWPA's system. SWPA customers, through their electric rates, will repay 34 percent of the entire cost of constructing these eight lakes — **almost \$234 million** — *plus interest!*

SWPA power is distributed in the district by the following consumer-owned, not-for-profit electric systems:

- **Canadian Valley Electric Cooperative**, Seminole
- **Central Rural Electric Cooperative**, Stillwater
- **Cimarron Electric Cooperative**, Kingfisher
- **City of Copan**
- **Indian Electric Cooperative, Inc.**, Cleveland
- **KAMO Power**, Vinita
- **Kay Electric Cooperative**, Blackwell
- **Oklahoma Electric Cooperative**, Norman
- **Verdigris Valley Electric Cooperative**, Collinsville
- **Western Farmers Electric Cooperative**, Anadarko
