

## **PROFILE OF SWPA POWER In The 11th Congressional District of Texas**

**Almost 114,000 constituents** in the 11th Congressional District of Texas enjoy the benefits of clean, renewable and efficient hydropower generated at Corps of Engineers multipurpose reservoirs and marketed by the Southwestern Power Administration. SWPA power distributed to businesses and industry also supports **more than 18,000 jobs** in the district with a payroll of **almost \$286 million annually**.

The power marketed by SWPA is generated at 24 Corps dams in the region, including four in Texas: Denison Dam/Lake Texoma, Robert D. Willis/B.A. Steinhagen Lake, Sam Rayburn and Whitney. Whitney, of course, is located in the 11th Congressional District. In 1995 these four dams generated **1,330 million kWh** of electricity, or more than 17 percent of the energy generated by SWPA's system. SWPA customers, through their electric rates, will repay 29 percent of the entire cost of constructing these four lakes — **more than \$78 million** — *plus interest!*

SWPA power is distributed in the district by the following consumer-owned, not-for-profit electric systems:

- **Bartlett Electric Cooperative, Inc.**, Bartlett
- **Belfalls Electric Cooperative, Inc.**, Rosebud
- **Brazos Electric Power Cooperative, Inc.**, Waco
- **Comanche County Electric Cooperative Association**, Comanche
- **Erath County Electric Cooperative Association**, Stephenville
- **Hamilton County Electric Cooperative Association**, Hamilton
- **Hill County Electric Cooperative, Inc.**, Itasca
- **Johnson County Electric Cooperative Association**, Cleburne
- **McLennan County Electric Cooperative**, McGregor
- **Navarro County Electric Cooperative, Inc.**, Corsicana
- **Navasota Valley Electric Cooperative**, Franklin
